

# A healthier team starts here

Bring CVS Pharmacy® to you with free on-site vaccine clinics offering 10+ vaccines to help you support your company’s health.

## Why choose a CVS® on-site clinic?

**We administer millions of vaccines every year, including COVID-19 and the flu**

**Because the flu costs employers and businesses \$13 billion a year\***

**They’re simple and scalable, with**

- 28-day advanced scheduling
- 20-participant minimums
- Operational support for all group sizes

### What can an on-site CVS vaccine clinic do for you?

## 96.4% of clients would host another on-site vaccine clinic with CVS Pharmacy.\*\*

But don’t take our word for it...

♥

“Our pharmacist and tech made the process seamless and painless...an invaluable service for our employees.”

— Health care system client

♥

“Employees appreciated the range of available vaccines. Look forward to working with CVS again next year!”

— School district client
